COMPANY OVERVIEW

1187 Government Services is a Fort Worth, TX-based provider of equipment procurement, fleet acquisition support, and capital structuring to prime contractors executing government logistics and base operations contracts. We perform defined subcontract scopes—sourcing commercial vehicles and equipment, coordinating vendors, and managing procurement execution—so primes can maintain schedule, reduce risk, and meet subcontracting goals.

Our founder brings a former U.S. Air Force contracting background and hands-on experience supporting \$3M+ equipment transactions, giving us a rare ability to navigate both the acquisition and operational sides of government contract execution.
